Sometimes my teacher asks questions.

There are lots of children in my class who have their hand up and the teacher chooses one of the other children.

My friends feel sad too because they want to answer the teacher’s question. The next time the teacher asks a question my friend’s put their hands up again.

I will try to be more like my friends and put my hand up when I know the answer. I will try not to be sad if the teacher doesn’t choose me.

Christopher Wade (SLT)
When I go outside at break time I like to play with my friends.

Sometimes I like to walk around the playground with my friends.

I must remember to be the best friend in the world and **not** to push or hurt my friends.

I will try to be the best friend in the world by playing with my friend and not hurting them. This way, I will have lots of friends at school!
When I go outside at break time I play with my friends. Sometimes I like to play football.

Sometimes other children say nasty things to me that upset me.

I must remember **not** to hit the children who are teasing me, and that the bravest thing to do is walk away to another place in the playground.

I will try to be the bravest in the playground and to always walk away when I am being teased. This way, I will have lots of friends at school.

Me!
Sometimes at school I need to go to the toilet. In the toilets there is a machine that my friends use to dry their hands. This is the hand drier and it makes lots of noise.

I must wash my hands and then I can use the paper towels in the classroom to dry them. If I don’t wash my hands the germs could make me poorly.

If the hand drier comes on whilst I am in the toilet I must be brave and finish going to the toilet, then pull my pants up.

I must remember to wash my hands when I go to the toilet so that I don’t get poorly.
